

## Customer service from top to bottom.

From upper management on down to our warehouse interns, American Bolt & Screw is guided by this philosophy: No request is too unreasonable. ABS managers routinely make fastener and hardware deliveries to customers before or after hours. Our quality control manager travels coast-to-coast to troubleshoot and consult with you. And we were one of the first to offer vendor-managed inventory, bar-code labeling, kitting and custom packaging to the modular manufacturing industry.

Expect top-notch customer service down to the smallest detail. Call 800.325.0844, or visit: [absfasteners.com](http://absfasteners.com)

Get the new ABS video, *We Hold Industry Together*. It's FREE. Email your request to: [davew@absfasteners.com](mailto:davew@absfasteners.com)
